7.2	<p><b>Report of the Drainage Superintendent/Project Manager dated September 2, 2011</b></p> <p>From the Drainage Superintendent’s report came a few points to highlight:</p> <ol style="list-style-type: none"><li>1) The advice of Kenn Smart on the Section 76 Reports for the interior Bradford West Gwillimbury municipal drains is to be further examined to establish an estimated per acre cost to the lands affected for the completion of these reports. This is to be completed prior to appointing an engineer to update the reports for these municipal drains.</li><li>2) There were concerns expressed about the growth of vegetation and weeds on the completed berms. In accordance with the drainage report, the berms are to be maintained as the drainage superintendent deems necessary. At the present time, the growth is necessary to prevent erosion of the berm and will not be addressed until the following year at the earliest.</li><li>3) The North Canal relocation work will commence from the point where the trial area in Interval 1 concluded, moving north-easterly toward the Fraser Creek and further, east of the highway 400, fulfilling the work required under Contract10.1A.1.</li><li>4) While the Tendering process for the second phase of the Project is now complete, and a recommendation has</li></ol>	<i>Frank Jonkman</i>
